| <i>Interest will be assessed on any unpaid work invoice balance after 30 days.</i> | |

Company Information:

CARS was established in 1984 to provide professional accident reconstruction to the legal and insurance industries. During that time, the staff has investigated thousands of accidents from the very simple to the most complex. We also work with other experts (biomechanics, occupant safety, etc.) to provide a complete evaluation of all factors that go into understanding an accident.

Mike C. Andrews, Ph.D.
MikeAndrews@CompleteRecon.com

Brian Andrews, B.S.
BrianAndrews@CompleteRecon.com

Dr. Andrews is a physicist (Ph.D, 1987, North Texas State Univ.) and computer scientist that first became involved to accident reconstruction in 1982 through his background in computer modeling and programming. Since that time, he has provided his expert opinion in hundreds of cases. He is a past Director and President of the Texas Association of Accident Reconstruction Specialist (TAARS) and is a member of the Society of Automotive Engineers (SAE), the American Academy of Forensic Science (AAFS), and the American Physical Society (APS). The Accreditation Commission for Traffic Accident Reconstruction (ACTAR) has accredited Dr. Andrews. He has taught several courses related to accident reconstruction through Texas A&M University. He also teaches Astronomy and Physics at several local colleges. He has qualified as an expert in local, state and federal courts.

Brian Andrews has bachelor's degree in Engineering Physics and Physics from Tarleton State University. Areas of study include Engineering, Physics, Mathematics, and Computer Science. He has completed formal training in Accident Investigation, Accident Reconstruction, EDR technician and analysis, Commercial Motor Vehicle investigation, Reconstruction software, Animation and Crash Data Recording to acquire ACTAR certification and other various certifications. He is an active Director and Board member of TAARS and is heavily involved in onsite training to further his knowledge in the field of reconstruction.

We are with you every step of the way >>>

CARS uses the latest survey, modeling, and reconstruction equipment along with highly qualified personnel to provide the best accident reconstruction service for a reasonable price. CARS employees are centrally located in the DFW area; therefore, we are able to provide our services across the state of Texas as well as the surrounding states and even across the United States. Included in our country-wide coverage is a twenty-four hour on-call service for large loss exposure.
